

Please don't cut off the traffic and weather channels. I subscribed to satellite radio because i can't get this type of programming on demand for my own pleasure elsewhere on the cookie cutter am channels. I also listen to the new music, opera, and other stations that afford me a great deal of pleasure, and i am willing to pay for it. it should not be up to the National Association of Broadcasters to dictate what i hear. I despise the right wing talk radio and their agenda, i.e. restrict my listening rights, and am trying to get away from it. I respectfully urge the FCC to reject the Nab's petition 04-160 and support XM's ability to provide the kind of programming that i deserve under the first amendment. please do not interfere with my right to listen to what i please.
